TERROIR / SOIL

From terroir unfettered by artificial pesticides, fungicides and fertilisers. The grapes are sourced from trellised aged between 4 and 10 years old and managed to international organic standards. The vines grow in decomposed granite soils with a high clay concentration. The average annual rainfall for these vineyards ranges between 450 mm and 500 mm.

WINEMAKING

The organically grown grapes were harvested at optimal ripeness, destemmed and crushed into stainless-steel tanks to retain freshness and concentrate intense fruit aromas. The wine spent four months on its lees to enhance its structure and boost flavour development.
